

Glen India introduces Modern Appliances

Glen Appliances India introduces new range of innovative appliances, with functionality and aesthetics as its key features. The latest additions are Bread Maker, Glass grill, Air fryer, Room Heaters, Glass Kettle with Tea Making attachment, Travel Kettle and a Hand Mixer. The products have been designed dexterously for the future homes and serve the contemporary living needs to the fullest. Relish the taste of fresh homemade breads with **Bread maker GL 3034** which comes with 12 menu presetting and serves the bread lovers delectable bread, cakes, jams with simple settings.

For the people who love grilled food, Glen introduces teppanyaki style of cooking to kitchen with its **Glass Grill GL 3033** which is compact and stylish. The pore-free and sealed German Schott Ceran ceramic glass surface to cook directly and fast, thus minimal fat is required and the vitamins and minerals are not drawn out; foods retain their natural flavor and remain juicy and tender. Now make sumptuous barbeques in minutes and indulge into a hassle free cooking. Another product for the health conscious people is **Glen Digital Air Fryer GL 3041**, a product designed for the people who believe in healthy living. Now enjoy all the favorite French fries, nuggets and snacks without deep-frying but simply air frying them, which means make it up to 80% oil free. The fryer circulates air up to 200C around foods like chips, chicken, fish, thus is able to brown them off nicely with less use of oil. It is equipped with a grill and a fan to blow very hot air around food at high speeds. This achieves the browning and crisping which is seen when food is fried, roasted, toasted or baked.

Add the fragrance of freshly brewed tea to lives with **Glen Tea Maker & Kettle GL 9010**, which makes tea conveniently by just moving the stainless steel tea filter assembly up and down, thereby infusing the tea leaves in the tea. And after detaching this assembly, this is a glass kettle, simply pour and enjoy a flavored morning. Make travel plans more comfortable and carry **Travel Kettle GL 9009** which is Compact, stylish and easy to clean and also comes with two travel cups and spoons for convenience.

From kitchen to now rooms, Glen stretches its reach by adding warmth in lives through its **PTC and Oil Heaters**. These heaters are much advanced than other available heaters as, they burn no oxygen, create no suffocation and dryness and are much faster in heating and very efficient in terms of energy saving. The **Glen oil filled radiator heater GL 7011**, uses a cycle of oil which acts as a heating reservoir to keep the fins heated. As the oil circulates, it is kept warm by an electric heating coil and thus heats the air in contact in an effective manner. For faster heating results unlike other OFR heater this comes with a turbo fan and PTC ceramic chip and is available in 9/11/13 fins.

Glen PTC heaters GL7012 lowers the maintenance down time as no fuses to change, and doesn't let the current surpass the set temperature, making them safe and energy efficient. PTC ceramic chips are highly reliable, have longer life and are compact making these heaters portable and handy with better performance.

"We have always taken care of consumer needs and have developed the smart products for much easier and healthier lifestyles. All these appliances have been designed keeping in mind the urban requirement of future homes that is why the technology used is much advanced and adds more comfort to busy lives." says **Sohrab**, from **Glen Appliances**.
