

Mini Chopper 4043 - Small machine for small Quantity tasks.

Glen has launched another innovation, It is MC 4043, a small packet to do all small quantity's task in very quick manner and in a easiest way. This mini chopper is technically perfect and has outstanding functions and elegant designs like all the products produced by Glen.

A major problem occurs with Food Processor or Juicer Grinder, to do chopping, mashing or pureeing in small quantity bco'z of **Large size, cleaning process** etc.

So, Glen took another step to increase the customer's convenience by launching a smart, small and compact Mini Chopper to your smart kitchen. Which helps you in chopping your vegs/nuts, to whisking your egg/milk, and to make purees of small quantity, in quick manner and in a very easiest way. Because of its small size it is also easy to clean and time saving. This mini chopper is easiest to operate, you just need push a button and can chops, whisks, mashes your food element.

It has rust-resistant stainless steel blades and food grade PC bowl, so you can trust on it for safe & hygienic output. The PC bowl is transparent also which provide you online visibility, so you get output as you want not a little bit more or nor less.

With a smart looks, and space & time saving feature it provides you following features:

- **Small Compact Size:** because of small size it is best for small quantity task, easy to clean, and time saving.
- **Capacity 400ml:** It is small but has 400 ml capacity for your content.
- **Food Grade Transparent PC Bowl for Clear Visibility:** Food grade technology provide you safe and hygienic food and due to transparency you can watch and adjust your task online.
- **Push Start:** It is easiest to use, just push a button it starts your chopping, whisking etc.
- **Rust-resistant SS Blade:** Stainless steel blade which non-reactive and never get rust so you can trust for safe food.
- **Non-slip ring for stability:** Non slip ring prevents slipping of machine when it is working.
- **Whisker Attachment:** Mini chopper also allows to you whisking. Glen added another attachment to do whisking task.
- **250 Wattage:** It needs only 250 wattage power to start, so no electricity problem occurs with this mini chopper.
